

Testimony of Brother Daniel

I want to be grateful to God for being part of the Restoration Gospel. I was baptized as a child, but later on I got to know and to understand who really Jesus Christ is, through one brother, Solomon, who began to minister unto me. Since that time I came into the ministry, working for Christ, and He has been so good to me, He has been doing some good things for me. Making me to really know who He really is, and putting my trust and confidence in Him as my Lord and Savior. Knowing that he came and that He died for my sins on calvary's cross. After realizing that I decided to work for Him. And here I find myself being part and parcel of the Restoration Gospel and after going through the study with Pastor Vick, I decided, with the help of God, to be baptized today. So I want to be grateful to God that He was able to stand by me in making that decision, because the decision couldn't have been made alone by me, but it was through the help of God that I came up with that decision and today I've been baptized. Praise the Lord!

Testimony of Brother Mark

Praise the Lord! First of all I want to be thankful to God for sparing my life to see this day. A unique day in my life. I want to be thankful to Him for helping us to go through the class we been going through with Pastor Vick, and helping us to come to this decision. I have my roots in the Baptist Church, where I have been working as an evangelist or we say missionary to the indigenous people. But I think this is not just an important day in my life, but an important day in the history of this nation. We are going to start the Restoration Gospel. I remember one day, back in my Bible Study at the Baptist Church, I asked the question; Whether the church is still the church, the early church. Is it still the same? They had a tough time answering that question. But I think God has made a divine connection that we get in contact with Pastor Vick, that I have actually understood the Restoration Gospel. Now today mark an important day in the history of Liberia, when it comes to religion and Christianity. Because today, whatsoever we have done here, determines how Liberia going to be inline with our Christian brothers in the world. We are not only going to take the gospel to people who are unreached, but also restore other people who have fallen away. Praise the Lord!

Testimony of Brother Ben

I want to be thankful to God for giving us the opportunity to see this day and to go through this ceremony. I also have been part of the Baptist church, but having met with Pastor Vick, and going through a series of study. How the churches have fallen away from the 1st century church and what Jesus meant His church to be. I have decided to go through this ceremony as a sign of restoration, and I also want other people to see this and to join with us, that we too will partner together, to carry the word of God forth, and be able to restore other Christians.

Closing prayer by Bro. Mark

Heavenly Father we want to thank you oh God, for bringing us here today, allowing us to have gone through this ceremony. We just want to thank you oh God, you have given us a task, oh God, and it is you who is going to enable us to carry out that task. We pray oh God for your power and strength. We pray oh God, for even these, our brothers and sister who have come to witness us, Father, that God you are going to speak to their minds and they will reach similar decisions. Father we pray as we are on our way back to our various homes, that you will carry us safely. Be with us today, in Jesus' name, Amen.
